The Senate Refuses to Confirm Murat Halstead.

The Remainder Being Either Paired or Not Voting-McKinley or Foraker Suggested Now-Richard Smith Follows His Partner's Example and Needn't Want Anything from Certain Senators-An Article from The Commercial Guzette-Official Notes.

WASHINGTON CITY, April 1,-The nominaite Saturday afternoon when the motion of Sherman to reconsider the vote by which laid on the table by a vote of 25 to 19. The matter was under discussion less than two hours, and almost all of "that time was devoted to a speech by Sherman in support of Halstead. When the discussion was concluded a motion was made to lay on the table the motion to reconsider offered on Thursday by Sherman. On this question six Republican senators voted in the affirmative, der to remove them and beautify and im an I two Democratic senators voted in the

would be able to persuade several Democrats to vote for him, and it was with this object the nomination Friday and the day before. They were disappointed in the vote. The who was counted on to vote for Haistond, refrained from voting. On the Republican side Teller, Ingalis, Plumb. Evarts, Dawes, and Quay voted in the affirmative. Senator Cullom, who was outspoken in his opposition to the nomination, was absent, but he was paired with a Republican. Stanford, Stewart, and Jones of Nevada, refrained from voting, but their votes would have been cast n the affirmative if they had been needed. It was an incident worth noting that the two Democrats who worked the hardest for the confirmation were Henry Watterson and samuel J. Randa l. Haistend's enemies said that if it had not been for the influence of the administration the nomination could not have been sure of ten out of the seventy-six rotes, and they insisted that his confirmation would have been equivalent to a vote of sensure upon Senator Payne and an indorsement of the man who had slandered him and assailed senators by name who had refused o vote as Halstead dictated in the Payne ase. One of the senators said: "Mr. Halstead has denounced me personally as a boodler, and I am sure he doesn't want to go to Berlin with my indor-ement."

Gen. H. V. Boynton, Washington correspondent of The Commercial Gazette, has received the following t-legram from Bangor, Me : Mr. Boutelle has just sent the following telegram to the president: "In rejecting Mural Haistead's nomination for the reason stated the senate has struck one of the most

It is generally conceded that another Onio man will be selected, and the names of Foraker and McKinley are mentioned. It is not likely that McKinley will take the office if it be offered him, as he stands a good chance of being elected speaker of the house.

The confirmations by the senate Saturday included: Robert T. Lincoln, minister to John Hicks, minister to Peru; George B. They are Democrats, and that is the strongest charge that is a cough? It is an irritation of the throat and lungs. What causes it? Congestion. Stop the congestion, the irritation ceases and the cough is cured. But how to stop the congestion? Ah, there is just where physicians have always been puzzled. But it must be checked, or pneumonia, quick consumption or some terrible pulmonary disease will follow. Some doctors give cod liver oil, others cough syrups, but the most advanced prescribe stimulants. Nature must be assisted. Pure whisky will do it. See what physicians say: Prof. Austin Flint, of Bellevue, New York, college, says: "The judicious use of alcohelic stimulants is one of the striking characteristics of progress in the practice of medicine during the last half century."

Professor Henry A. Mott, of New York says: "The purity of the congestion. Stop the congestion, the irritation of the throat and lungs. What causes it? Congestion. # Sight is Priceless!

### WHY NEGLECT IT?

Prof. ANDERSON.

Graduate of the London Optical Institute, and located at 57 Washington street, Chicago, is stopping at the Harper House, this city. Has all the latest improvements for examing and testing. Ophthalmoscopic examinations made in children who cannot use judgment in answering questions.

No charge for consultation or advice. No exorbitant prices. It requires differently constructed lenses for the scores of different defects. You can see the force of these remarks.

In my youth I had excellent sight, but toward middle age my sight began to wane. I kept on buying glasses here and there, and though I could see better with them than without them, yet, after reading awhile, my eyes felt drawn and uneasy. sometimes feeling a pain above the temples and other distressing aches. I consulted Prof. Anderson, and now my sight is as good as it ever was. I cheerfully recommend him to all-DR. J. O. HARRIS, 29 Main Street, Ottawa, Ill.

I am a physician and have been in practice in Ottawa for the last 80 years. When I was a boy my sight was none too good. When I was 40 years old it became vastly worse, and I could not see distinctly at any distance. I consulted Dr. Anderson, and I can now see better than ever I did in my life. I say success to him. DR. L. DYER. Ottawa, Ill. A reporter met Samuel Parr on Madison street yesterday, and noticing the

happy expression on his countenance and the things he had on his face, ventured to remark: 'Mr. Parr. why those glasses, and why that happy expression on your face?" "Well, sir, I will tell you why," said Mr. Parr, smiling graciously upon me, "the one is to see with and the other is to let it be known that I can see. If you had suffered as I have, and felt greatly relieved as I do now, you would surely smile Mr. Parr said he has taken from school when a mere boy, and as a consequence had received almost no education, though his father was well off and intended him for the bar. He went to farming at Rutland, three miles out of Ottawa, and has been at it 20 years. He said if he did not know where the Professor lived and could not get another pair, that money could not buy them. After reading a little, his eyes run water, his head ached and sometimes felt heavy. As a parting shot he glanced at the reporter and said he could count every hair in his (the repor ter's) mustache. - Ottawa Journal.

[The above is true, as any one can find out by writing S. E. Parr, Ottawa, Ill ] I cannot say what the Professor has done for me, but one thing I do know, that hereas I was blind, almost blind, now I see. Mrs. S. M. PORTER, Aurora, Ill. If a word of commendation from me will be of any assistance to those afflicted with defective sight, I have no hesitancy in adding my name to the many who have so highly testified to the ability of Prof. Anderson as an Optician. I have put him to tevere tests by bringing him cases that were considered very difficult by Chicago oculists, and now the patients can see by his method as well as ever.

DR. S. D. POLLOCK. Galesburg, Ill. I treated a lady for several months who suffered from headaches, dizzlness and limness of vision, and after prescribing all the medicines known to science, I heard that Prof. Anderson was in town, and sent her to see him. He gave her glasses. and since that time she has been a happy woman. Beyond a doubt he is master of his business, and I cheerfully recommend him to all. DR. W. T. PATTERSON, Aurora, III.

I have no one traveling with me, and any one claiming to act as my agent is a fraud.

Having engagements elsewhere, the Professor will remain but a short time. All suffering from complicated vision had better call at once.

PROF. ANDERSON.
